

TESLASUIT STORAGE & CLEANING

How to store and clean your
TESLASUIT properly: DO's and DONT's

01

Unplug the suit from the power bank

02

Store the suit on the bundled hanger

03

Put on the bundled anti-dust cover

04

Keep the suit and its accessories in a cool and dry place away from direct sunlight

05

Don't turn the suit inside out

06

Do not cut off the label with the QR code

- Clean the suit according to the recommendations below.
- Disconnect the power bank and remove it from the pocket before cleaning the suit.

Do Not Wash

The suit must not be washed in the machine or by hand.

Do Not Bleach

No bleach should be used at all.

Do Not Tumble Dry

The suit can't safely be machine dried.

Drip Flat Drying In Shade

Lay flat to dry out of direct sunlight.
Do not wring prior to laying out.

Do Not Iron

The suit does not withstand ironing.
It may be damaged.

Do Not Dry Clean

No professional dry-cleaning allowed.
Do not use stain removers which contain solvents.

Very Mild Professional Wet Cleaning

Wet cleaning techniques for very sensitive
textiles with much reduced mechanical
action are required.

WE RECOMMEND THE FOLLOWING CLEANING METHODS FOR THE SUIT.
ANY OTHER CLEANING METHODS CAN DAMAGE THE SUIT.
TEMPORARY DEFORMATION OF THE FABRIC AFTER CLEANING IS POSSIBLE.

- **Very mild professional wet cleaning**
- **Steam closet**
(Refer to the user manual for specific manufacturer instructions)
- **Hand steamer**
(Refer to the user manual for specific manufacturer instructions)
- **Wet wipes**
